**“MU—making a difference!”**

### **SHORT TERM PROJECT—2008**

#### **Help build an MU Nursery School for needy children**

The Mothers' Union on the Thai/Myanmar Border are concerned about the families who are displaced due to military action in Myanmar against the Karen people. They have no access to education, many cannot read or write in their own Karen Language.

Being able to go to a Nursery School will give the children a great start to their education; it will enable parents to learn to work together in the community; and enable mothers to work to help support families.

Attached is a list of things needed to construct and to keep the Nursery Schools operating.

The goods are readily available, so we don't need you to chop down your bamboo plant. What we do need is the money to pay for the materials to build and resource the two schools, thus generating work and hope in this needy community.

#### **Involve your Parish, your friends, your community.**

\$50 will buy a huge cooking pot.

\$133 will provide maintenance at each school for a year.

Less than \$5 will buy 25 spoons.

\$1 will buy 1 kg of nails.

Choose one or more items from the list and donate the cost to MU.
