All Saints Anglican Church Mitcham MU

EXTENDS AN INVITATION TO HEAR

Tracey Sawyer

founder of

Testigo Africa Inc.

enlighten us about the

**Longido Sustainable Water
Program,**

Longido, Tanzania, Africa

“Tracey Sawyer left her job and life in Australia to fulfil a promise she made to a Masai tribe in Longido, to help them with a water project tapping the Lukumahi spring water source in Mt. Longido.

She’s spent the past five months in Tanzania assessing the current water situation, establishing the technical team including the lead water engineer, setting up a village water committee and working with the Government at local and district level and suppliers of materials for the project in nearby Arusha. She is now back in Australia to raise funds to implement the project.”

“We would love to have a gathering of interested people” ...Tracey Sawyer
